09th January 2018

Dear Parent

Re: Minsthorpe Community College.

Pacy and Wheatley Construction Limited have been appointed by Minsthorpe College to undertake the removal and replacement of selected external cladding including windows and doors, selected roofs, both flat and pitched, rain water goods along with internal repairs and redecorations.

Works commence 15/01/2018 for 22 weeks to complete week commencing 25/06/2018.

Whilst the site is operational we shall aim to keep any disruption to an absolute minimum, however, there may be times when noise may become an issue, such as when large deliveries arrive or machinery is being operated.

All works will be carried out with the highest level of safety being paramount at all times.

We must specifically emphasize the need for your awareness to Construction Traffic on Minsthorpe Lane.

In an effort to strive for continued improvement, the development is being registered for the 'Considerate Contractors Scheme'. This is a national initiative set to improve the whole image of construction.

All sites are monitored to see how they represent the company and the construction industry on key issues including environment, cleanliness, safety, respect, consideration, good neighbours, responsibility and accountability.

For more information on the scheme, please visit www.ccsscheme.org.uk or telephone 0800 7831423.

Ivor Goodsite (the CCS scheme ambassador) encourages children to "Stay Safe is to Stay Away".

We ask that you, as parents, re-inforce this position with your child.

In the event of any issues or concerns that may arise as a direct result of our works, please do not hesitate to contact our Site Management Team, Mr Derrick Hill (07920 230161)

May we take this opportunity to thank you for your patience and co-operation throughout this project and to ensure you that any disruption and noise levels will be kept to an absolute minimum.

Yours sincerely

Joe Ridgeway

Construction Manager
